

Five-Day Method for the ALERT Brain Training Program

Instructions: This program takes 60 days to complete. Do a session for five days and then go on to the next session. If you miss a day, pick up where you left off. If you miss more than one day, please start over with that session. If you miss several days in a row, start over at the beginning with session Group 1 (Relaxation-1). Remember that you need consistency for the ALERT to be effective.

If you would like to do a session for more than five days, that is fine. Some users like to do each session at least seven times each. However, the program will take a little bit longer to complete this way.

For each day that you do an ALERT session, darken the circle. The numbers 0 to 6 after the circle is for recording your “relaxation landmark” after the session. Circle the number that best describes your session. This will help you to be more aware of your progress. Ultimately, the goal is to have a landmark of six during your sessions. It will take some time to reach this landmark, but you should be able to reach it by the end of 60 days of consecutive sessions. (For a detailed description of the subjective landmarks, see chapter four in the book)

Update: Since the book was published, the ALERT has been updated, so the “letters” (A,B, C, D) that are mentioned in the book have been replaced with group names. For instance, Group A is now Group 1 Relaxation, Group B is now Group 2: Left Hemisphere, Group C is Group 3: Right Hemisphere, and Group D is Group 4: Whole Brain.

Forgive this crude diagram!

The buttons are circled.
From left to right, they are:

- Group 1 Relaxation
- Group 2: Left Hemisphere (L)
- Group 3: Right Hemisphere (R)
- Group 4: Whole Brain. (LR)
- Group 5: Extra Sessions (Ex)
- Group 6: User Designed (+)

You will be using Group 1-4
for the 60-day protocol

Instructions:

(1) Select the Group session. Do you see the word ‘Canada’ on the right? Next to it is a button with a circle within a circle. Press on it to select the “group” session that you want. (You will start with the Relaxation session)

(2) Use the INT arrows to select the number that you want. (Start with number one)

(3) Click on the music note to start the ALERT session. (You’ll know its working if you see light and hear sound. Now close your eyes and enjoy your session)
